Clinic Policy

All charges are due and payable after receipt of the initial billing. If you cannot pay the balance in full, please call our business office to arrange a mutually agreed upon payment plan. **You are responsible for payment of your account.** If there is an overpayment by you, it will be refunded.

Insurance Processing:

Parkview Medical Clinic will submit a claim to your insurance, if we are a participating provider with your insurance plan. We depend on you to provide us with a copy of your current insurance card. Please be prepared to present your insurance card at each visit.

If we are not participating providers for your insurance plan, **you** will need to submit the charges to your carrier. Our bills are designed to help you submit a claim quickly and easily.

Payments:

New patients to Parkview Medical Clinic that do not have medical insurance are required to pay 50% at the time of service and make payment arrangements with the business office for the balance. New Patients with deductibles on their medical insurance are required to pay 50% or a minimum of \$50, at the time of service and make payment arrangements with the business office for the balance.

Payment for all charges is due within 60 days after you receive your services, whether or not your insurance company has paid. If you cannot pay the full amount, please call our business office to arrange a payment plan. These charges may include co-pays, deductibles and services not covered by insurance. Accounts unpaid past this time limit, may be subject to collections and you and your family will be asked to seek medical care elsewhere.

Medicare Supplements:

Parkview Clinic will file claims to all supplemental Medicare coverage. We feel this greatly benefits our Medicare patients. We must be provided with a copy of the supplemental insurance card and a complete address of where to send the claims.
